

Application Serial No. 10/629,208  
Office Action Dated February 10, 2006  
Examiner: K.E. Campbell  
Art Unit: 3618

**IN THE SPECIFICATION:**

Please replace the paragraph beginning at page 7, line 15, with the following amended paragraph:

[0046] In a further preferred form of the present invention, the four- wheeled vehicle ~~aeording to claim 1~~, further comprising a power unit part disposed below said rear passenger seat, said front wheel and said rear wheel providing a straight line extending through the vicinities of uppermost points thereof, said power unit part being disposed below said straight line.

Please replace the paragraph beginning at page 14, line 26, with the following amended paragraph:

[0131] Each of the four wheels 402, 402, 403, 403 includes a ~~tyre~~ tire having a diameter of 12 inches, for example.

Please replace the paragraph beginning at page 36, line 14, with the following amended paragraph:

[0228] Referring to Fig. 35, the driver's seat 35a is mounted on the storage box 36 in such a manner as to pivot on a hinge 71 to open and close an opening formed at an upper part of the box 36. When the seat 35a is pivots to open the opening of the box 36, as shown by an arrow a5, a helmet box and the like can be taken into or out of the box 36. It is to be understood that the hinge 71 may be provided at a front end portion of the storage box 36.
